

# Certificate

according to the  
**Revised Renewable Energy Directive (RED III)**

(Directive (EU) 2023/2413 of the European Parliament and of the Council of 18 October 2023  
amending Directive (EU) 2018/2001)

**Certificate Number: EU-ISCC-Cert-PL230-01762502**

**United Registrar of Systems Polska Sp. z o.o.**  
**ul Zeromskiego 62/2, 50-312, Wrocław, Poland**

certifies that

**VFS Trading s.r.o.**  
**Strojírenská 341/16, 591 01, Žďár nad Sázavou, Czech Republic**

complies with the requirements of the certification system

**ISCC EU**  
**(International Sustainability and Carbon Certification)**  
and the requirements of the RED III.

Place of the audit

(if different from the legal address of the system user as stated above; only applicable for traders and traders with storage):

n.a.

**This certificate is valid from 08.08.2026 to 07.08.2027.**

The site of the system user is certified as:

First Gathering Point  
Trader with Storage

Wrocław, 01.08.2026

Place and date of issue

Stamp, Signature of issuing party

The issuing Certification Body is responsible for the accuracy of this document.  
Version / Date: 1 / 01.08.2026

## Annex to the certificate:

### Sustainable/certified materials handled by the certified site

(This annex is applicable for all scopes except of Traders, Traders with storage, Warehouses, Logistic centres, MTBE and ETBE plants)

This annex is only valid in connection with the certificate:

**EU-ISCC-Cert-PL230-01762502 issued on 01.08.2026**

| *                           | Please indicate which scope(s) handle the material in case the certificate covers more than one scope. This does not apply for the following scopes: Trader, Trader with storage, Warehouse, Logistic Center, MTBE and ETBE plant                                                                                                                                                                            |                             |                       |                          |                                     |                                   |
| 1)                          | 1: Default value                                                                                                                                                                                                                                                                                                                                                                                             |                             |                       |                          |                                     |                                   |
|                             | 2: Actual value                                                                                                                                                                                                                                                                                                                                                                                              |                             |                       |                          |                                     |                                   |
|                             | 3: NUTS2 value or "NUTS2-equivalent" value. A "NUTS2-equivalent" value is a GHG value for cultivation in a "NUTS2-equivalent" region of a country outside the European Union (values are implemented by the European Commission). Option 3 is only applicable for the level of cultivation, i.e. for first gathering points, farms/plantations, central offices (group of farms or independent smallholders) |                             |                       |                          |                                     |                                   |
| 2)                          | A: The raw material meets the definition of waste or (processing) residue according to the RED III                                                                                                                                                                                                                                                                                                           |                             |                       |                          |                                     |                                   |
|                             | B: The raw material complies with the relevant sustainability criteria according to Art. 29 (2)-(7) RED III                                                                                                                                                                                                                                                                                                  |                             |                       |                          |                                     |                                   |
|                             | C: For RFNBOs/RCFs, the raw material complies with the relevant sustainability criteria according to Delegated Regulation (EU) 2023/1184                                                                                                                                                                                                                                                                     |                             |                       |                          |                                     |                                   |
| 3)                          | ISCC EU add-ons (voluntary application, see <a href="http://www.iscc-system.org">www.iscc-system.org</a> for further information):                                                                                                                                                                                                                                                                           |                             |                       |                          |                                     |                                   |
|                             | <ul style="list-style-type: none"> <li>• 202-04: Food Security Standard</li> <li>• 202-09 EU Deforestation Regulation (EUDR)</li> <li>• 202-10: Regenerative Agriculture</li> <li>• 205-03: Non GMO for food and feed</li> <li>• 205-04: Non GMO for technical markets</li> </ul>                                                                                                                            |                             |                       |                          |                                     |                                   |
| 4)                          | This add-on may apply to all or only part of the material handled.                                                                                                                                                                                                                                                                                                                                           |                             |                       |                          |                                     |                                   |
